DOMINO SEATING

Specifications DOMINO SEATING

Domino is a modular reception system, which can be adjusted as required. Versatile, linear and elegant, Domino is available in a single chair version, a 2/3-seater sofa version or a corner arrangement. It has a wooden structure, expanded polyurethane padding, feet in anodized aluminium with a round section or tubular steel with a squared cross-section, and a chromeplated or black lacquer finish. Domino can be upholstered in leather or fabric, with a Velicren support.

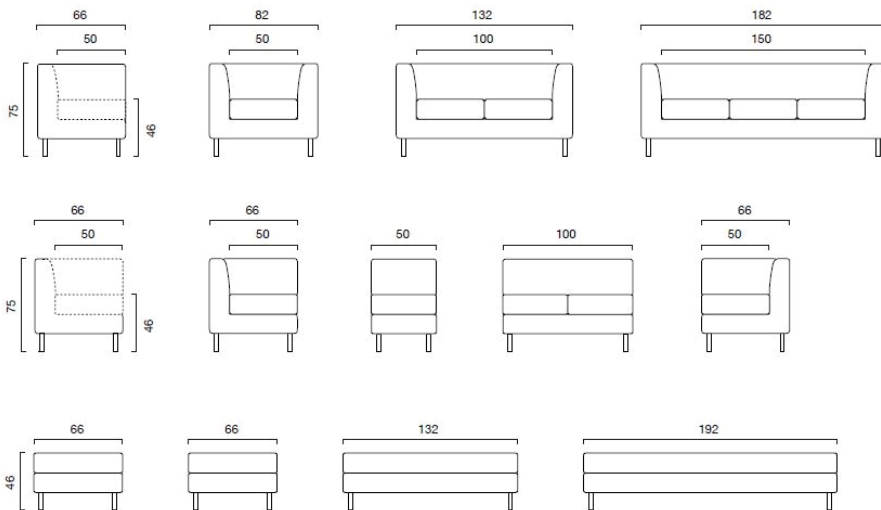

Fire Resistance

On request: Class 1 IM (Italian norm)
with upholstery in Trevira CS - Sistema.
