

LIQUID DISPOSAL

Airport Seating Alliance's Liquids Disposal unit allows for safe and mess-free disposal of up to 10 gallons of liquids. With a clear visual message, it is easily placed in convenient locations prior to the point of entry into airport security/screening areas, stadiums, theaters, concert halls and other areas where outside liquids and beverages are not permitted.

The large capacity sink includes a 1.5" drain featuring a snap-in screen to prevent debris from entering the retention tank. An easy view, 1.5" x 14", window allows for monitoring liquid levels.

DETAILS:

- 16 gauge Stainless Steel Fabricated body all welded construction with seamless top
- Body features laser cut liquids disposal graphic with blue backing for clear visual signage
- Sink is 10.75" in diameter and 4.5" deep with a 1.5" drain that features a snap-in screen to prevent trash & non-liquids from entering the retention tank
- Rear access door allows for easy emptying of liquids and includes quarter turn latch closure
- Easy view 1.5" x 14" window for monitoring liquid level
- Each unit includes a leak proof 10 gallon removable LLDPE-FDA resin retention tank hidden inside the base unit.
- Retention tank features an 8" removable lid for easy cleaning, and 3/4" ball valve with 1/2" drain tube for convenient draining
- The liner base resin meets UL94 flammability standard
- Units ships with 4 heavy-duty 3" Casters for superior maneuverability. Casters installed easily upon receipt
- Replacement parts available
- Contains over 60% recycled materials and is 100% post-consumer recyclable
